

# SAY “NO” TO UNHELPFUL CALL CENTERS

While **ADP**'s customer service model revolves around call centers, Netchex clients enjoy assistance from a team dedicated to serving your business.

## “HOLD WHILE WE TRANSFER YOU” JUST ISN'T OUR THING.

Nobody likes call center phone tag: You open a help ticket, talk to one person, then get transferred to a different person, only to be transferred again. Meanwhile, you're tracking case numbers *and* re-explaining the same issue to each person you encounter. Yikes! With Netchex, you're assigned a dedicated service squad that knows your business challenges and will keep you in the loop until they're resolved.
